## Barcode Software for Label Design and Data Collection

Whether you are looking for software to manage your barcode data collection or you are wanting to design your own barcode labels or both, we have the system for you! By understanding your current and future needs, the experts at WAKE, Inc. can ensure you are getting the package that works best for your company!

*Data Collection for inventories, shipping, and tracking purposes is 10 to 12 times faster than the manual method when you use Barcode!*

The major benefits include:

- Increased speed
- Less paperwork!
- And almost zero error rate (1 in 3,000,000 entries)!

At WAKE, Inc. we have many methods for barcode data collection which can be customized to your needs. We are just a phone call away!
